

BACKING COMPOSITION

Technical Data

Thickness

2.5 mm \pm 5%

Weight

2.8 kg/m² \pm 0.2 kg/m²

Primary Material

PVC

Fire Propagation Properties

(AS 2111.18 Pill Test)

Pass

(ASTM D2859)

Pass

Overview

Fully developed in house backing system specifically designed for Infinity Dye modular carpet tiles, as an compliment option for ESC Elastic Cushion Back, this backing provides firm foot feedback and allow for tighter budget projects.

Dimensional Stability & Durability

BVT™ Back is guaranteed to maintain original dimension for its purpose and visually. Backing is rated for high trafficking area use and will perform in product's lifetime.

Flexible Option

BVT™ Back can be applied to both Infinity Dye product as well as our standard SDN products, giving your project an option to fit in that tight budget.

Minimal VOCs Emission

BVT™ Back has minimal VOCs, meaning that non of harmful substance will be released into air which translate to a cleaner indoor air quality.

Recyclable

As part of Eco-Revive™ program, the recycled backing material can be incorporated into next line of production.
